### Pop, Pop, Pop Goes the Corn

Billy hears the popping and comes running into the kitchen. Grandma is making popcorn the old-fashioned way. She puts a little oil in the bottom of a big pan and adds a cup of popcorn kernels. Then she puts the lid on the pan, places it on the hot stove, and gently shakes it back and forth. Soon there is so much popped corn that it lifts the lid and starts to spill out. Grandma takes off the lid, pours in some melted butter, and shakes on some salt. Finally, Billy pops a handful of the delicious treat into his happy, hungry mouth.

1. What does Billy hear in the kitchen that makes him come running?

- bacon sizzling
- music playing
- chicken frying
- popcorn popping

2. Who is making the popcorn?

- Grandma
- Billy's sister
