### A Wheelchair for Adam

Adam has not been at school for many days. His family was in a car accident, and Adam's legs were severely injured. He will not be able to walk for a very long time. Adam's friends miss him and want him to come back. When he returns he will need to be in a wheelchair. Adam's teacher and his classmates discussed how they can help him. The teacher asked for volunteers to push Adam all around the school in his new wheelchair. Many excited hands went up. Adam has good friends who are eager to help. His teacher is pleased and proud.
