

## INFERENCES SERIES: PLACE

4. There are long illuminated aisles with shelves lining both sides. These are full of food cans and fresh produce. The place is divided into different sections, where you can find products from an apple to a frozen pizza. In the back are the boxes that the products came in. A person helps me bag my purchases. What place is it?

- a. a supermarket
- b. a museum
- c. a restaurant
- d. the beach

**Where are they?**

5. Many children are gathered in the same building to learn different subjects. The little ones cry because they want to go with their parents. Teachers come and go down the hall. The classrooms are large and beautifully decorated. The building has a computer room, a cafeteria, a library, and a gym. It also has a playground. What place is it?

- a. a planetarium
- b. a college
- c. a library
- d. a school

**What place is it?**

6. Young children splash joyfully in the water. Some of them use a float because they cannot swim. Others use a diving mask to see underwater. When they go out on the grass, their mothers wait for them with a towel to dry their faces and bodies. The lifeguard signals that it is almost time for them to close, so the children take one last dip. What place is it?

- a. a bathtub
- b. a parking lot
- c. a pool
- d. a bridge
