

# Fact Families

**House Diagram:** A house outline with a triangular roof containing three children: one boy at the top and two girls on either side. The front door area contains the numbers 2, 6, and 8. Below the house are four rows of boxes for equations.

|   |   |   |   |  |
|---|---|---|---|--|
| 2 | + | 6 | = |  |
| 6 | + | 2 | = |  |
| 8 | - | 2 | = |  |
| 8 | - | 6 | = |  |

**House Diagram:** A house outline with a triangular roof containing three children: one girl at the top and two boys on either side. The front door area contains the numbers 5, 4, and 9. Below the house are four rows of boxes for equations.

|   |   |   |   |  |
|---|---|---|---|--|
| 5 | + | 4 | = |  |
| 4 | + | 5 | = |  |
| 9 | - | 5 | = |  |
| 9 | - | 4 | = |  |

**House Diagram:** A house outline with a triangular roof containing three children: one boy at the top and two girls on either side. The front door area contains the numbers 5 and 10. Below the house are four rows of boxes for equations. The second row contains crossed-out symbols (+ and -) and a crossed-out equals sign (=).
