

Name _____

Apples to Applesauce

Karen loves to help her mother make applesauce. First, the apples are washed. Next, they are peeled, sliced, and boiled until soft. Then they drain them and let them cool. Karen gets to mash the cooled apples. Soon the bowl is full of applesauce. Making applesauce is lots of fun, but Karen's favorite part is eating it.

1. Who helps her mother make applesauce?

2. How does Karen feel about helping her mother make applesauce?

3. What is the first thing they do to the apples?

4. Are the cooked apples hot or cool when Karen mashes them?

5. What is Karen's favorite thing about making applesauce?
