

Name _____

Purple Ice is Delicious

On hot summer days Hailey's favorite thing to do is make flavored ice cubes with her mom. First, they fill ice cube trays with fruit juices or fruit drinks. Hailey likes to use purple grape juice because she thinks it tastes the best. Next, they place the trays in the freezer. Finally, after several hours, the juice cubes are frozen and ready to eat. Hailey pops one out of the tray and plunks it into her mouth. It is yummy and refreshing. Eating purple ice is a delicious way to escape the summer heat.
